

Code Blue®

NIGHTCHARGE™ PRODUCT SPECIFICATION

1.0 GENERAL DESCRIPTION

- 1.1 The unit shall have a high quality; internally mounted NightCharge™ alternate power assembly integrated with the security communications device.
- 1.2 The NightCharge™ system shall operate from the switched power light grid supply. It shall accept 120v AC input power and also be available with a step down transformer to accept input voltages as specified. Output power shall be 12v DC supply to all components. The NightCharge™ system shall function properly with at least 8 hours of daily continuous power from the switched power network and be able to function with one incomplete recharging cycle.
- 1.3 The NightCharge™ alternate power assembly and the security communications units shall be supplied by the same manufacturer to ensure full system compatibility.

2.0 WARRANTY

The unit shall be warranted for a period of two years. Reference manufacturers warranty for further details.

3.0 MANUFACTURER

- 3.1 The Manufacturer shall be Code Blue Corporation of Holland, Michigan. There are no equivalents.
- 3.2 Code Blue Corporation manufactures its products according to the most recent revision of product specifications, and shall not be held responsible for obsolete or outdated specifications. For the latest revision, please refer to www.codeblue.com.
