SECURITY

"I've been working with Lou (employee The Mercury Group) since our original system was installed about 6 years ago and I am very happy with the service we receive from Mercury. He's very easy to work with, explains things so you understand and he's always there in a pinch. Excellent customer service and response time from the company. If we have a problem, that cannot resolve myself, I just call Lou and he's right on top of things, 95% of the time he's out that same day."

Quality evidence when you need it.

Unfortunately, car break-ins and other criminal acts are a common threat for many business owners.

You never know when you're going to need to prove an incident that occurred at your premises.

Protect your business, customers and employees by installing a CCTV security camera system outside or inside of your building.

Monitor and record any incident—whether it's a false alarm or not.

Implementing next generation security.

With today's technology rapidly increasing, so are your options for monitoring your security surveillance system.

Monitor your business from anywhere— even your mobile phone.

Now, you can feel at ease the next time you are out of the office!

Integrity you can count on.

Who's watching your business when your not around?

Every business owner worries about their facility when they're away— for good reason.

Employees may have a tendency to slack on their work, leave early, and even steal when the owner of the business is away.

ANALOG VS. DIGITAL

A digital solution is easier and more cost-effective. Save on your budget while improving your facility's safety and security!

DIGITAL TECHNOLOGY

- ▽ Easier to use
- ▽ Advanced Search Capabilities
- ▽ Simultaneous Record and Playback
- ▽ Better Imaging
- ▽ Flexible Image Distribution
- ▽ Improved Storage
- ▽ Network Compatible
- ▽ Remote Access
- ▽ Unlimited Storage
- ▽ Automatic Motion Detection Alerts
- ▽ Reduced Monitoring
- ▽ Wireless
- ▽ No need for costly PTZ

ANALOG TECHNOLOGY

- ▽ Relies on time-lapse technology
- ▽ Requires Tape changing
- ▽ Limited storage on low-tech tapes (VCR)
- ▽ Low or no integration potential
