

OVERHEAD CAMERA MOUNT FOR CB 1 & PAS 1 PRODUCT FAMILY

To meet the need for additional communication and security integration, Code Blue offers an “overhead camera mount” option to the **CB 1** and **PAS 1** product family. This option allows the integrator to mount a dome camera device directly above the bollard and link phone activation to the camera operation.

The unique design allows this camera mount to be fully integrated with the bollard and can be ordered as an option on a new unit or separately to easily retrofit existing units now in the field*.

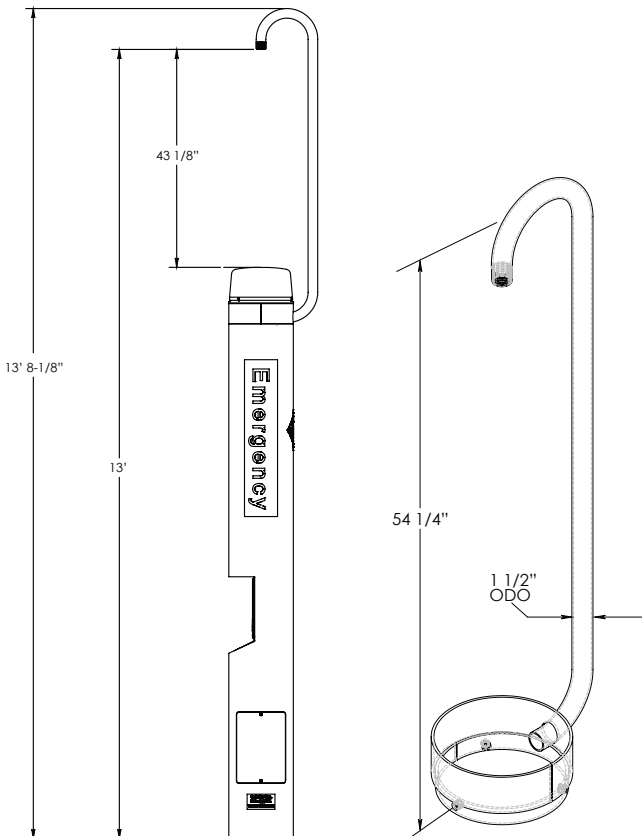

Installed unit and wiring costs for installations requiring both communications and CCTV can now be reduced when using this option. The Overhead Camera Mount uses standard 1½ NPT and is available in the standard Code Blue colors and custom ordered colors.

*** NOTE:** Bollards built before 1/2005 require the appropriate **NEW DOME TOP ASSEMBLY** retrofit kit listed:

#40163 120v AC

#40164 12-24v AC with active vent

#40224 12-24v AC with passive vent

UNIT SPECIFICATIONS

- ▶ Total height of CB 1 bollard, 13'8"
- ▶ Total height of CB 1 bollard to camera mount, 13'
- ▶ CB 1 dome top height to camera mount, 43-1/8"
